

System 11 Wifi App Note:
Williams/Bally System 11(all)
Loading historical high scores

Version 0.1

What is this for?

You should not have to give up your old high scores when you install a Warped Pinball board. And you don't have to - if you have a record of what your scores were they can be manually loaded back into the Warped system. This is a great power - and with it comes responsibility just like playing with the glass ON.

Three step process

- 1) Open up your pinball machines web page, and go to the "Admin" page. On the admin page click the "download Leaderboard" button and save the file to your computer.

A screenshot of a web interface for pinball machine management. At the top, there is a checkbox labeled "Enable Score Capture (Kinda major feature, should be on!)" which is checked. Below it is a date field showing "09/07/2024" and a "Set Date" button. The "File Download Actions:" section contains four buttons: "Download Leaderboard" (circled in red), "Download Player Names", "Download Tournament Scores", and "Download Logs". The "File Upload Action:" section has a "Choose File" button (with "No file chosen" text) and an "Upload File" button. The "Leader Boards:" section has two buttons: "Reset Leaderboard" and "Reset Tournament Board".

- 2) Now open the file with a simple text editor on your computer. Something like NotePad (not Word). You can now edit this file - carefully inserting Name, Score, Date, and Full name without changing the form and punctuation of the file. Here is what the file looks like, the first place player is listed first and so on down the list (20 positions!)

```
[
{
  "contents": [
    {
      "initials": "PSM",
      "date": "5/27/2023",
      "full_name": "Pinball Dude",
      "score": 3453860
    },
    {
      "initials": " ",
      "date": "04/17/2023",
      "full_name": " ",
      "score": 0
    },
    {
      "initials": " ",
      "date": "04/17/2023",
      "full_name": " ",
      "score": 0
    },
    {
      "initials": " ",
      "date": "04/17/2023",
      "full_name": " ",
      "score": 0
    },
    {
      "initials": " ",
      "date": "04/17/2023",
      "full_name": " ",
      "score": 0
    }
  ]
}
```

- 3) Finally use the admin panel to load the edited version of your file back up to the pinball machine. Use the “Choose File” to select the text file and “Upload File” to send it. All done!
